This Brochure provides information about the qualifications and business practices of Next Mission Financial Planning, LLC, “NMFP”. If you have any questions about the contents of this Brochure, please contact us at (314) 328-0086. The information in this Brochure has not been approved or verified by the United States Securities and Exchange Commission or by any state securities authority.

Next Mission Financial Planning, LLC is registered as an Investment Adviser with the State of Missouri. Registration of an Investment Adviser does not imply any level of skill or training.

Additional information about NMFP is available on the SEC’s website at www.adviserinfo.sec.gov, which can be found using the firm’s identification number, 316353.

Item 2: Material Changes

The last annual update of this Brochure was filed on March 6, 2023. Since then, the following changes have been made:

- We have updated our professional designations.
- We have updated our investment management fees.
- We have updated our Outside Business Activities.

From time to time, we may amend this Brochure to reflect changes in our business practices, changes in regulations, and routine annual updates as required by securities regulators. Either this complete Brochure or a Summary of Material Changes shall be provided to each Client annually and if a material change occurs in the business practices of Next Mission Financial Planning, LLC.

Item 4: Advisory Business

Description of Advisory Firm

Next Mission Financial Planning, LLC (hereinafter referred to as “NMFP”, “we”, “firm”, and “us”) is registered as an Investment Adviser with the State of Missouri. We were founded in June, 2021. Michael Hunsberger is the principal owner of NMFP.

Types of Advisory Services

Investment Management Services

We are in the business of managing individually tailored investment portfolios. Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background.

Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as tax considerations. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

Project-Based Financial Planning Service

We provide project-based financial planning services on topics such as retirement planning, risk management, college savings, cash flow, debt management, work benefits, and estate and incapacity planning.

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written or an electronic report, providing the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives.

In general, the financial plan will address any or all of the following areas of concern. The Client and advisor will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

Business Planning: We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.

Cash Flow and Debt Management: We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and

other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.

College Savings: Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to grandchildren (if appropriate).

Employee Benefits Optimization: We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be structured to meet both business and personal retirement goals.

Estate Planning: This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.

Financial Goals: We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.

Insurance: Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.

Investment Analysis: This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.

Retirement Planning: Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

Risk Management: A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance (“self-insuring”).

Tax Planning Strategies: Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their “tax efficiency,” with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

Ongoing Comprehensive Financial Planning

This service involves working one-on-one with a planner over an extended period of time. By paying a fixed quarterly fee, Clients get to work with a planner who will work with them to develop and implement their plan. The planner will monitor the plan, recommend any changes and ensure the plan is up to date.

Upon engaging us for ongoing financial planning, a Client will be taken through a process establishing their goals and values around money. They will be required to provide information to help complete the following areas of analysis: net worth, cash flow, insurance, credit scores/reports, taxes/tax returns, employee benefit, retirement planning, insurance, investments, college planning, and estate planning. Once the Client's information is reviewed, their plan will be built and analyzed, and then the findings, analysis and potential changes to their current situation will be reviewed with the Client. The comprehensive financial plan will be a living document within the financial planning software NMFP uses. Clients subscribing to this service will receive an electronic format of their plan, which will provide the Client with a detailed financial plan designed to achieve his or her stated financial goals and objectives. The plan will be updated and reviewed at least annually to ensure its accuracy and ongoing appropriateness, and any necessary updates will be implemented at that time. Meetings will be conducted on a 6 month surge basis, with a minimum of one (1) meeting required per year. Clients can request additional meetings based on life events or concerns. Throughout the year, NMFP will monitor the Client's plan, their financial situation and goals, and follow-up phone calls and emails will be made to the Client to confirm that any agreed upon action steps have been carried out. These action steps will reflect ongoing quarterly activity and may include (but are not limited to) client education, financial planning tasks and reviews, and periodic newsletters.

College Planning

We also offer college planning as a separate service outside of our standard financial planning. This service involves working one-on-one with a financial planner to discuss college planning needs and strategy. College Planning is ideal for families with college-bound students from 9th grade to early college and includes the following:

- Understanding your EFC
- Ideas to increase need-based aid
- Maximizing aid with multiple children
- Best use of 529 Plans and other account types
- Student loan projection and analysis
- 4-year college budget
- Funding gap analysis
- College savings strategy
- 12 months of access to College Aid Pro

Tax Preparation & Tax Planning Assistance

In certain cases we will recommend tax preparation and tax planning services to planning and/or investment management clients and will refer them to recommended third-party accounting and tax planning firms for the preparation and filing of client's federal and state tax returns. In certain situations we will have the client sign an information sharing agreement allowing us to work with the client and the tax preparer to gather the necessary information, participate in meetings and phone calls, and provide additional support as needed, however, we will not act as the tax preparer or provide tax advice unless we are otherwise qualified to do so. We do not receive any compensation from third parties for recommending their services to our clients.

Client Tailored Services and Client Imposed Restrictions

We consult with clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the clients' investment and/or planning needs. We ensure that clients' investment and planning recommendations are suitable for their needs, goals, objectives, and risk tolerance.

Clients are able to specify, within reason, any limitations they would like to place on discretionary authority as it pertains to individual securities and/or sectors that will be traded in their account. All such requests must be provided to NMFP in writing. NMFP will notify Clients if they are unable to accommodate any requests.

Wrap Fee Programs

We do not participate in wrap fee programs.

Assets Under Management

NMFP currently reports \$240,423 discretionary and no non-discretionary Assets Under Management. Assets Under Management were calculated as of December 31, 2022.

Item 5: Fees and Compensation

Please note, unless a Client has received this brochure at least 48 hours prior to signing an investment advisory and/or a Financial Planning Agreement (collectively, "Client Contract"), the Client Contract may be terminated by the Client within five (5) business days of signing the Client Contract without incurring any fees. How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Client Contract for more detailed information regarding the exact fees you will be paying.

Investment Management Services

Our standard advisory fee is based on the market value of the assets under management. In computing the market value of any investment contained in the account, each security listed on any national securities exchange shall be valued at the last quoted sale price on the valuation date on the principal exchange on which such security is traded. Any other security or asset shall be valued in a manner determined in good faith by the Adviser to reflect its fair market value. The advisory fee is calculated as follows:

Account Value	Annual Advisory Fee
\$0 - \$500,000	1.10%
\$500,001 - \$1,000,000	1.0%
\$1,000,001 and Above	0.90%

The annual fees are negotiable and are prorated and paid in arrears on a quarterly basis. The advisory fee is a blended fee and is calculated by assessing the percentage rates using the predefined levels of assets as shown in the above chart resulting in a combined weighted fee. For example, an account valued at \$600,000 would pay an effective fee of 1.08% with the annual fee of \$6,500. The quarterly fee is determined by the following calculation: $((\$500,000 \times 1.1\%) + (\$100,000 \times 1.00\%)) \div 4 = \$1,625$. No increase in the annual fee shall be effective without agreement from the Client by signing a new agreement or amendment to their current advisory agreement.

Advisory fees are directly debited from Client accounts, or the Client may choose to pay by credit card, electronic funds transfer, or check. For fees paid by electronic funds transfer, debit card or credit card, we use an independent third party payment processor in which the client can securely input their banking information and pay their fee. We do not have access to the client’s banking information at any time. The client will be provided with their own secure portal in order to make payments. Accounts initiated or terminated during a calendar quarter will be charged a prorated fee based on the amount of time remaining in the billing period. An account may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Ongoing Comprehensive Financial Planning

Ongoing Financial Planning consists of an ongoing fee that may be paid monthly or quarterly at the client’s discretion, in arrears, at the rate of \$328.33 - \$1200 per month or \$985 - \$3600 per quarter. The fee is negotiable. Fees for this service may be paid by credit card, electronic funds transfer, check, or deducted from client’s accounts. NMFP uses an independent third party payment processor in which the client can securely input their banking information and pay their fee. We do not have access to the client’s banking information at any time. The client will be provided with their own secure portal in order to make payments. Clients must cancel before the end of the month to avoid charges for the next month. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Project-Based Financial Planning Fixed Fee

Project-Based Financial Planning is offered on a fixed fee basis. The fixed fee will be agreed upon before the start of any work. The fixed fee can range between \$600 and \$10,000, depending on the complexity and the needs of the client. The fee is negotiable. If a fixed fee program is chosen, half of the fee is due at the beginning of the process and the remainder is due at completion of work, however, NMFP will not bill an amount above \$500.00 more than 6 months in advance. Fees for this service may be paid by credit card, electronic funds transfer, or check. NMFP uses an independent third party payment processor in which the client can securely input their banking information and pay their fee. We do not have access to the client’s banking information at any time. The client will be provided with their own secure portal in order to make payments. In the event of early termination

any prepaid but unearned fees will be refunded to the Client and any completed deliverables of the project will be provided to the Client and no further fees will be charged.

College Planning

College Planning is offered on a fixed fee basis. The fixed fee will be agreed upon before the start of any work. The pricing is as follows: For 1 student, the fee is \$1,495; For 2 or more students, the fee is \$1,795. If this fixed fee program is chosen, for 1 student, \$895 will be charged upfront, and \$200 will be charged each quarter after the quarter in which services are initiated; for 2 or more students, \$895 will be charged upfront, and \$300 will be charged each quarter after the quarter in which services are initiated. NMFP will not bill an amount above \$500.00 more than 6 months in advance. The fee is negotiable. This service will include 3 meetings and 12 months of access to College Aid Pro. Fees for this service may be paid by credit card, electronic funds transfer, or check. NMFP uses an independent third party payment processor in which the client can securely input their banking information and pay their fee. We do not have access to the client's banking information at any time. The client will be provided with their own secure portal in order to make payments. In the event of early termination any prepaid but unearned fees will be refunded to the Client and any completed deliverables of the project will be provided to the Client and no further fees will be charged.

Financial Planning Hourly Fee

Hourly Financial Planning engagements are offered at an hourly rate of \$250 per hour. The fee is negotiable and is due at the completion of the engagement. In the event of early termination by the Client, any fees for the hours already worked will be due. Fees for this service may be paid by credit card, electronic funds transfer, or check. NMFP uses an independent third party payment processor in which the client can securely input their banking information and pay their fee. We do not have access to the client's banking information at any time. The client will be provided with their own secure portal in order to make payments.

Single-Fee Comprehensive Bundle

We also offer investment management, comprehensive planning, and tax prep services as a single-fee, comprehensive bundle. Fees for this service start at \$10,000 and range up to \$30,000 annually depending on complexity and the amount of money to be managed. The annual fees are negotiable and are prorated and paid in arrears on a quarterly or monthly basis. Fees for this service may be paid by credit card, electronic funds transfer, check, or deducted from client's accounts. NMFP uses an independent third party payment processor in which the client can securely input their banking information and pay their fee. We do not have access to the client's banking information at any time. The client will be provided with their own secure portal in order to make payments. Clients must cancel before the end of the month to avoid charges for the next month. Since fees are paid in arrears, no refund will be needed upon termination of the account.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending broker-dealers for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

We do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and portfolio management services to individuals and high net-worth individuals.

Our minimum account size requirement is \$100,000.

Item 8: Methods of Analysis, Investment Strategies and Risk of Loss

Our primary method of investment analysis is Modern Portfolio Theory primarily through the use of broadly diversified Exchange Traded Funds. Fundamental analysis will be used for Clients with individual company stock.

Modern Portfolio Theory

The underlying principles of MPT are:

- Investors are risk averse. The only acceptable risk is that which is adequately compensated by an expected return. Risk and investment return are related and an increase in risk requires an increased expected return.
- Markets are efficient. The same market information is available to all investors at the same time. The market prices every security fairly based upon this equal availability of information.
- The design of the portfolio as a whole is more important than the selection of any particular security. The appropriate allocation of capital among asset classes will have far more influence on long-term portfolio performance than the selection of individual securities.
- Investing for the long-term (preferably longer than ten years) becomes critical to investment success because it allows the long-term characteristics of the asset classes to surface.
- Increasing diversification of the portfolio with lower correlated asset class positions can decrease portfolio risk. Correlation is the statistical term for the extent to which two asset classes move in tandem or opposition to one another.

Passive and Active Investment Management

We may choose investment vehicles that are considered passive, active, or a combination of both styles.

Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve a desired relationship between correlation, risk and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio.

Active investing involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark. Actively managed funds are also designed to reduce volatility and risk.

We may engage in both passive and active investing in your portfolio. However, we strive to construct portfolios of funds and individual securities that we believe will have the greatest probability for achieving our clients' personal financial goals with the least amount of volatility and risk rather than attempt to outperform an arbitrary index or benchmark.

Specific investment selections are based on a number of factors that we evaluate in order to select, what we believe to be, the highest quality funds or individual securities for our clients. These factors include but are not limited to underlying holdings of funds, percentage weighting of holdings within funds, liquidity, tax efficiency, bid/ask spreads, and other smart/strategic beta factors. These factors may or may not result in the lowest cost ETFs and mutual funds available when utilizing funds in a client's portfolio, but we strive to keep internal fund expenses as low as possible.

Strategic Asset Allocation

In the portfolio construction process, we focus not only on asset classes such as equities, fixed income, and cash, but also on investment strategy styles such as fundamental, quantitative, active, and passive. We believe that diversification across both asset classes and investment strategies is critical for achieving an attractive reward-to-risk ratio in the portfolio. We employ both strategic and tactical asset allocation approaches. Through strategic asset allocation, we construct our long-term target weights for asset classes and strategies based on the client's time horizon, risk tolerance, and required rate of return to meet his or her financial goals. Through tactical asset allocation approaches, we may deviate from target long-term weights established according to our strategic asset allocation approach within tolerance ranges based on our return expectations for asset classes and investment strategies at a given point in the market cycle.

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when

interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Common stocks may go up and down in price quite dramatically, and in the event of an issuer's bankruptcy or restructuring could lose all value. A slower-growth or recessionary economic environment could have an adverse effect on the price of all stocks.

Corporate Bonds are debt securities to borrow money. Generally, issuers pay investors periodic interest and repay the amount borrowed either periodically during the life of the security and/or at maturity. Alternatively, investors can purchase other debt securities, such as zero coupon bonds, which do not pay current interest, but rather are priced at a discount from their face values and their values accrete over time to face value at maturity. The market prices of debt securities fluctuate depending on factors such as interest rates, credit quality, and maturity. In general, market prices of debt securities decline when interest rates rise and increase when interest rates fall. The longer the time to a bond's maturity, the greater its interest rate risk.

Municipal Bonds are debt obligations generally issued to obtain funds for various public purposes, including the construction of public facilities. Municipal bonds pay a lower rate of return than most other types of bonds. However, because of a municipal bond's tax-favored status, investors should compare the relative after-tax return to the after-tax return of other bonds, depending on the investor's tax bracket. Investing in municipal bonds carries the same general risks as investing in bonds in general. Those risks include interest rate risk, reinvestment risk, inflation risk, market risk, call or redemption risk, credit risk, and liquidity and valuation risk.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above or below their net asset value; (ii) the ETF may employ an investment strategy that utilizes high leverage ratios; or (iii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds: When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

NMFP and its management have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

NMFP and its management have not been involved in administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

NMFP and its management have not been involved in legal or disciplinary events that are material to a Client's or prospective Client's evaluation of NMFP or the integrity of its management.

Item 10: Other Financial Industry Activities and Affiliations

No NMFP employee is registered, or has an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

No NMFP employee is registered, or has an application pending to register, as a futures commission merchant, commodity pool operator or a commodity trading advisor.

NMFP does not have any related parties. As a result, we do not have a relationship with any related parties.

NMFP only receives compensation directly from Clients. We do not receive compensation from any outside source. We do not have any conflicts of interest with any outside party.

Recommendations or Selections of Other Investment Advisers

NMFP does not recommend Clients to TAMPs to manage their accounts.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm and its associates have a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings. The firm also adheres to the Code of Ethics and Professional Responsibility adopted by the CFP® Board of Standards Inc., and accepts the obligation not only to comply with the mandates and requirements of all applicable laws and regulations but also to take responsibility to act in an ethical and professionally responsible manner in all professional services and activities.

Code of Ethics Description

This code does not attempt to identify all possible conflicts of interest, and literal compliance with each of its specific provisions will not shield associated persons from liability for personal trading or other conduct that violates a fiduciary duty to advisory Clients. A summary of the Code of Ethics' Principles is outlined below.

- Integrity - Associated persons shall offer and provide professional services with integrity.
- Objectivity - Associated persons shall be objective in providing professional services to Clients.
- Competence - Associated persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- Fairness - Associated persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- Confidentiality - Associated persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- Professionalism - Associated persons' conduct in all matters shall reflect the credit of the profession.
- Diligence - Associated persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Neither our firm, its associates or any related person is authorized to recommend to a Client or effect a transaction for a Client, involving any security in which our firm or a related person has a material financial interest, such as in the capacity as an underwriter, adviser to the issuer, etc.

Advisory Firm Purchase of Same Securities Recommended to Clients and Conflicts of Interest

Our firm and its “related persons” may buy or sell securities similar to, or different from, those we recommend to Clients for their accounts. In an effort to reduce or eliminate certain conflicts of interest involving the firm or personal trading, our policy may require that we restrict or prohibit associates’ transactions in specific reportable securities transactions. Any exceptions or trading pre-clearance must be approved by the firm principal in advance of the transaction in an account, and we maintain the required personal securities transaction records per regulation.

Trading Securities At/Around the Same Time as Client’s Securities

From time to time, our firm or its “related persons” may buy or sell securities for themselves at or around the same time as clients. This may provide an opportunity for representatives of NMFP to buy or sell securities before or after recommending securities to clients resulting in representatives profiting off the recommendations they provide to clients. Such transactions may create a conflict of interest; however, NMFP will never engage in trading that operates to the client’s disadvantage if representatives of NMFP buy or sell securities at or around the same time as clients.

Item 12: Brokerage Practices

Factors Used to Select Custodians and/or Broker-Dealers

Next Mission Financial Planning, LLC does not have any affiliation with Broker-Dealers. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

In recommending broker-dealers, we have an obligation to seek the “best execution” of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the broker-dealer’s services. The factors we consider when evaluating a broker-dealer for best execution include, without limitation, the broker-dealer’s:

- Execution capability;
- Commission rate;
- Financial responsibility;
- Responsiveness and customer service;
- Custodian capabilities;
- Research services/ancillary brokerage services provided; and
- Any other factors that we consider relevant.

With this in consideration, our firm recommends Charles Schwab & Co., Inc. (“Schwab”), an independent and unaffiliated SEC registered broker-dealer firm and member of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”). Although clients may request us to use a broker-dealer of their choosing, we generally recommend that clients open brokerage accounts with Schwab. We are not affiliated with Schwab. The Client will ultimately make the final decision of the Custodian to be used to hold the Client’s investments by signing the selected broker-dealer’s account opening documentation.

1. Research and Other Soft-Dollar Benefits

Our qualified custodian(s) used for investment management may provide us with certain brokerage and research products and services that qualify as “brokerage or research services” under Section 28(e) of the Securities Exchange Act of 1934 (“Exchange Act”). This is commonly referred to as a “soft dollar” arrangement. These research products and/or services will assist us in our investment decision making process. Such research generally will be used to service all of our client accounts, but brokerage charges paid by the client may be used to pay for research that is not used in managing that specific client’s account.

2. Brokerage for Client Referrals

We receive no referrals from a broker-dealer or third party in exchange for using that broker-dealer or third party.

3. Clients Directing Which Broker/Dealer/Custodian to Use

We do recommend a specific custodian for Clients to use, however, Clients may custody their assets at a custodian of their choice. Clients may also direct us to use a specific broker-dealer to execute transactions. By allowing Clients to choose a specific custodian, we may be unable to achieve the most favorable execution of Client transaction and this may cost Clients money over using a lower-cost custodian.

The Custodian and Brokers We Use (Charles Schwab)

The custodian and brokers we use maintain custody of your assets that we manage, although we may be deemed to have limited custody of your assets due to our ability to withdraw fees from your account (see Item 15 – Custody, below).

Your brokerage and custody costs: For our clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees. Schwab is also compensated by earning interest on the uninvested cash in your account in Schwab's Cash Features Program.

Products and services available to us from Schwab: Schwab Advisor Services is Schwab's business serving independent investment advisory firms like us. They provide our clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our clients' accounts, while others help us manage and grow our business. Schwab's support services are generally available on an unsolicited basis (we don't have to request them) and at no charge to us. Following is a more detailed description of Schwab's support services:

Services that benefit you: Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our clients. Schwab's services described in this paragraph generally benefit you and your account.

Services that may not directly benefit you: Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or a substantial number of our clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:

- provide access to client account data (such as duplicate trade confirmations and account statements)
- facilitate trade execution and allocate aggregated trade orders for multiple client accounts
- provide pricing and other market data
- facilitate payment of our fees from our clients' accounts
- assist with back-office functions, recordkeeping, and client reporting

Services that generally benefit only us: Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:

- Educational conferences and events
- Consulting on technology, compliance, legal, and business needs
- Publications and conferences on practice management and business succession do not require that you maintain your account with Schwab, based on our interest in receiving Schwab's services that benefit our business and Schwab's payment for services for which we would otherwise have to pay rather than based on your interest in receiving the best value in custody services and the most favorable execution of your transactions. This is a potential conflict of interest. We believe, however, that our selection of Schwab as

custodian and broker is in the best interests of our clients. Our selection is primarily supported by the scope, quality, and price of Schwab's services (see "How we select brokers/ custodians") and not Schwab's services that benefit only us.

The Custodian and Brokers We Use (Altruist)

For the benefit of no commissions or transaction fees, fully digital account opening, a large variety of security options and complete integration with software tools, NMFP recommends Altruist Financial LLC, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the introducing broker to Apex Clearing Corporation, an unaffiliated SEC-registered broker dealer and FINRA/SIPC member, as the clients' custodian. NMFP does not receive any research or other soft-dollar benefit by nature from its relationship with Altruist Financial LLC, nor does NMFP receive any referrals in exchange for using Altruist Financial LLC as a broker dealer.

Aggregating (Block) Trading for Multiple Client Accounts

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or persons associated with our firm may participate in block trading with your accounts; however, they will not be given preferential treatment.

Item 13: Review of Accounts

Michael Hunsberger, Founder and CCO of NMFP, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services. NMFP does not provide specific reports to financial planning Clients, other than financial plans.

Client accounts with the Investment Advisory Service will be reviewed regularly on a quarterly basis by Michael Hunsberger, Founder and CCO. The account is reviewed with regards to the Client's investment policies and risk tolerance levels. Events that may trigger a special review would be unusual performance, addition or deletions of Client imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Clients will receive trade confirmations from the broker(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

NMFP will not provide written reports to Investment Advisory Clients.

Item 14: Client Referrals and Other Compensation

We do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients. Nor do we, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

Item 15: Custody

NMFP does not accept custody of Client funds except in the instance of withdrawing Client fees.

For Client accounts in which NMFP directly debits their advisory fee:

- i. NMFP will send a copy of its invoice to the custodian at the same time that it sends the Client a copy.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements for the account, including the amount of the advisory fee.
- iii. The Client will provide written authorization to NMFP, permitting them to be paid directly for their accounts held by the custodian.

Clients should receive at least quarterly statements from the broker-dealer, bank or other qualified custodian that holds and maintains Client's investment assets. We urge you to carefully review such statements and compare such official custodial records to the account statements or reports that we may provide to you. Our statements or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

Discretionary and Non-Discretionary Trading:

NMFP offers investment advisory services on both a discretionary and non-discretionary basis. For client accounts managed on a discretionary basis, we maintain discretion over client accounts with respect to securities to be bought and sold, the amount of securities to be bought and sold, and NMFP will not give advance notice or seek the Client's consent for any changes to the Portfolio. For client accounts managed on a non-discretionary basis, NMFP will give advance notice or seek the Client's consent for any changes to the Portfolio.

Investment discretion is explained to clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the client will execute a Limited Power of Attorney, which will grant our firm discretion over the account. Additionally, the discretionary relationship will be outlined in the advisory contract and signed by the client.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's

qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

Registered Investment Advisers are required in this Item to provide you with certain financial information or disclosures about our financial condition. We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to Clients, and we have not been the subject of a bankruptcy proceeding.

We do not have custody of Client funds or securities or require or solicit prepayment of more than \$500 in fees per Client six months in advance.

Item 19: Requirements for State-Registered Advisers

Michael Hunsberger

Born: 1972

Educational Background

- 2018 – Masters of Strategic Studies, Air War College
- 2008 – Masters of Science, Cyber Warfare, Air Force Institute of Technology
- 2001 – Masters of Science, Systems Technology, Naval Postgraduate School
- 2001 – Masters of Science, Computer Science, Naval Postgraduate School
- 1996 – Bachelors of Science, Computer Engineering, Rochester Institute of Technology

Business Experience

- 06/2021 – Present, Next Mission Financial Planning, LLC, Founder and CCO
- 07/1996 – 07/2021, United States Air Force, Cyber Operations Officer

Professional Designations, Licensing & Exams

Michael Hunsberger holds the Chartered Financial Consultant designation:

Chartered Financial Consultant (ChFC): This designation is issued by The American College and is granted to individuals who have at least three years of full-time business experience within the five years preceding the awarding of the designation. The candidate is required to take seven mandatory courses which include the following disciplines: financial, insurance, retirement and estate planning; income taxation, investments and

application of financial planning; as well as two elective courses involving the application of the aforementioned disciplines. Each course has a final proctored exam and once issued, the individual is required to submit 30 hours of continuing education every two years.

CFP® (Certified Financial Planner):

Michael Hunsberger is certified for financial planning services in the United States by Certified Financial Planner Board of Standards, Inc. (“CFP Board”). Therefore, Michael Hunsberger may refer to himself as a CERTIFIED FINANCIAL PLANNER™ professional or a CFP® professional, and Michael Hunsberger may use these and CFP Board’s other certification marks (the “CFP Board Certification Marks”). The CFP® certification is voluntary. No federal or state law or regulation requires financial planners to hold the CFP® certification. You may find more information about the CFP® certification at www.cfp.net.

CFP® professionals have met CFP Board’s high standards for education, examination, experience, and ethics. To become a CFP® professional, an individual must fulfill the following requirements:

- Education – Earn a bachelor’s degree or higher from an accredited college or university and complete CFP Board-approved coursework at a college or university through a CFP Board Registered Program. The coursework covers the financial planning subject areas CFP Board has determined are necessary for the competent and professional delivery of financial planning services, as well as a comprehensive financial plan development capstone course. A candidate may satisfy some of the coursework requirements through other qualifying credentials.
- Examination – Pass the comprehensive CFP® Certification Examination. The examination is designed to assess an individual’s ability to integrate and apply a broad base of financial planning knowledge in the context of real-life financial planning situations.
- Experience – Complete 6,000 hours of professional experience related to the personal financial planning process, or 4,000 hours of apprenticeship experience that meets additional requirements.
- Ethics – Satisfy the Fitness Standards for Candidates for CFP® Certification and Former CFP® Professionals Seeking Reinstatement and agree to be bound by CFP Board’s Code of Ethics and Standards of Conduct (“Code and Standards”), which sets forth the ethical and practice standards for CFP® professionals.

Individuals who become certified must complete the following ongoing education and ethics requirements to remain certified and maintain the right to continue to use the CFP Board Certification Marks:

- Ethics – Commit to complying with CFP Board’s Code and Standards. This includes a commitment to CFP Board, as part of the certification, to act as a fiduciary, and therefore, act in the best interests of the client, at all times when providing financial advice and financial planning. CFP Board may sanction a CFP® professional who does not abide by this commitment, but CFP Board does not guarantee a CFP® professional's services. A client who seeks a similar commitment should obtain a written engagement that includes a fiduciary obligation to the client.
- Continuing Education – Complete 30 hours of continuing education every two years to maintain competence, demonstrate specified levels of knowledge, skills, and abilities, and keep up with developments in financial planning. Two of the hours must address the Code and Standards.

Certified College Financial Consultant (CCFC):

This designation is issued by the American Institute of Certified College Financial Consultants (AICCCFC) and is granted to individuals who meet all of the following prerequisites: possess one of the following professional designations: CPA, CFP, ChFC, CPWA, AFC or provide evidence of sufficient education and experience to be deemed satisfactory by the AICCCFC. Designees must complete a comprehensive education program that covers education funding, tax planning with education deductions and credits, financial aid planning, student loan advising, and practical planning strategy topics, and receive a passing grade of 80 or higher on all respective assessments in the program.

In order to maintain the CCFC Designation, designees must complete four hours of approved continuing professional education on an annual basis if they possess one of the approved prerequisite professional designations or 15 hours if they do not possess one of the approved prerequisite professional designations. In addition, CCFC designation holders must abide by the Code of Ethics, which requires designees to act with integrity, objectivity, competence, fairness, professionalism, diligence, and maintain client confidentiality.

Other Business Activities

Michael Hunsberger is currently employed as a higher education consultant for College Aid Pro. This activity accounts for approximately 5% of their time.

Performance-Based Fees

NMFP is not compensated by performance-based fees.

Material Disciplinary Disclosures

No management person at Next Mission Financial Planning, LLC has ever been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Material Relationships That Management Persons Have With Issuers of Securities

Next Mission Financial Planning, LLC, nor Michael Hunsberger, have any relationship or arrangement with issuers of securities, in addition to what is described in Item 10.

Additional Compensation

Michael Hunsberger does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through NMFP.

Supervision

Michael Hunsberger, as Founder and Chief Compliance Officer of NMFP, is responsible for supervision. He may be contacted at the phone number on this brochure supplement.

Requirements for State Registered Advisers

Michael Hunsberger has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
